

To Perceive the world with logic

By Walter van Laack

Van Laack Gmbh Aug 2007, 2007. Taschenbuch. Book
Condition: Neu. 22x15.5x cm. This item is printed on demand -
Print on Demand Neuware - Is there a higher creative
intelligence, is there a God Is there a spirit, a spiritual
dimension Does our life end with death Do humans have a free
will What is our 'ego' Are life and spirit mere incidental
products of matter Was everything really created by the Big
Ban These and many other questions occupy all our minds at
some time or other! Natural science and religions offer diverse
and often mutually excluding and contradictory answers.
Natural science preaches materialisms. Neither God nor a
discarnate spirit, not even our 'ego' or our free will find
acceptance in the tenets of natural science and modern brain
research. Is this materialism, so characteristic of our times, the
right notion The author is a practicing medical specialist and a
professor at a German University of Applied Sciences. he has
lectured at a natural scientific-technical faculty for many
years. He is convinced that materialism is not the right
explanation and the believes that he can prove this by means
of confirmed natural scientific knowledge. With his consistent
observation beyond...
